## WORK HISTORY

*Software Developer*

**Nugi Technologies | August 2020 to Date**

- Worked with cross-functional teams including UX designers, product managers, and other developers to create high-quality software products.
- Collaborated with other developers to identify and alleviate the number of bugs on a website and web app.
- Developed and maintained web applications using React.js and other related technologies.
- Met with managers on a weekly basis to provide a detailed project report and milestone updates.
- Website proposal drafting.

*Frontend Intern*

**Nugi Technologies | May 2019 to July 2020**

- Developed clean, clear, and well-tested code for various projects.
- Created multiple-page websites with JavaScript and Typescript, improving website performance and speed.
- Maximised coding efficiency through effective optimisation and participating in code reviews and providing constructive feedback to other developers.

*Tech Instructor*

**Nugi Innovations | Feb 2021 to Date**

- Taught kids (5 years to 12 years) visual programming and how to build creative programs.
- Designed and orchestrated the learning roadmaps for web development, FullStack, and other programming courses.
